

Shore Up Our Future

A KBIA Waterfront Campaign 2022-2023

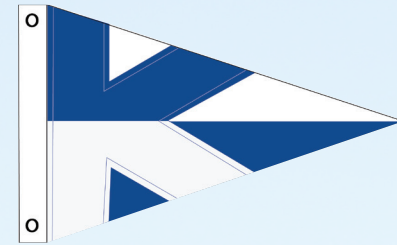

The KBIA waterfront is a special place for our campers, full of exploration and adventure. It's where our campers build a love and respect for our coastal environment and gather a lifetime of memories. As stewards of the Cove and Waterfront for this generation and the next we are launching a campaign to Shore Up Our Future. Our goal is to raise \$200,000 in 2022-2023.

The KBIA Board of Directors has committed to the first \$25,000. We hope you will join us.

Help Shore Up Our Future

- Make an investment in KBIA today to help launch the campaign
- Commit to a two-year pledge (2022-2023)
- Consider a gift of stock
- Plan to join us for the Seaside Celebration on July 23 to help support the Campaign

Questions? Please reach out to Mimi Fox at executivedirector@kbia.net or the KBIA Board.

Your gift will support the next generation of KBIA sailors, paddlers and adventurers!

Rising tides and increasingly destructive winter storms have made it a priority to ensure our structures and access points for our coastal programming can thrive amid shifting conditions and serve KBIA for many future summers. Your gift will make an immediate impact and support current critical needs required to update equipment and ensure safety on the waterfront. Important preventative work includes:

- Raising the pier in consultation with Custom Floats and industry experts to address flood plains alongside the Town of Kennebunk
- Repairing and replacing all the docks and floats
- Investing in taller pilings
- New boat racks for entire fleet
- Repairs to the current laser fleet
- Replacing motorboat in our fleet either through second-hand donation or new acquisitions
- One new laser float to increase enrollment in laser classes
- One new deep-water dock
- Acquiring 2 new lasers
